

SOUTH HADLEY COMPREHENSIVE PLAN  
IMPLEMENTATION MATRIX Historic Commission

| Historical Commission - Recommended Action - 5/1/2013   | Chapter-Goal | Goal or Land Use Objective | Priority Action | Timeframe |                       |                      |                      |         |
|---|--------------|----------------------------|-----------------|-----------|-----------------------|----------------------|----------------------|---------|
|   |              |                            |                 | Immediate | Near Term (1-3 years) | Mid Term (3-6 years) | Long Term (6-10 yrs) | Ongoing |
| Document the buildings and historic features (such as the WPA murals in the post office) in the Hadley Street/Woodbridge Street corner, including the post office. <b>Will be done through Historic District Study.</b>   | CHR-1        | 1-1-5                      |                 |           |                       |                      | ✓                    |         |
| Design local historic districts based upon an inventory/analysis in appropriate areas such as Route 47/Woodbridge and South Hadley Falls. <b>Falls area inventory exists. See also above.</b>   | CHR-1        | 1-1-7                      |                 |           |                       |                      |                      | ✓       |
| Identify and map historic roadways. <b>Done</b>   | CHR-1        | 1-5-1                      |                 |           | ✓                     |                      |                      |         |
| Develop and consolidate a web-based inventory of South Hadley's historic landscapes, districts and resources, including historic farm fields and structures. <b>Under discussion. Some resources exist.</b>   | CHR-2        | 2-1-1                      |                 | ✓         |                       |                      |                      |         |
| Develop an oral history of the Town's landscapes, districts and resources. <b>See above.</b>  | CHR-2        | 2-1-3                      |                 | ✓         |                       |                      |                      |         |
| Develop a repository of the oral history. <b>Done: new Library.</b>   | CHR-2        | 2-1-4                      |                 | ✓         |                       |                      |                      |         |
| Create content for the Town website and local access cable channel that features the special significance of buildings and places in South Hadley. <b>Some content exists but requires formatting and management.</b>   | CHR-2        | 2-1-5                      |                 | ✓         |                       |                      |                      |         |
| Ensure that expansion/development of municipal facilities minimize impacts on historic landscape features. <b>Ongoing.</b>  | CHR-3        | 3-1-2                      |                 |           |                       |                      |                      |         |
| Create and implement a demolition delay bylaw or similar approach, carefully considering (1) the extent of demolition that would be subject to such a regulation, and (2) whether certain districts and/or structures should be exempted from these provisions. <b>Appears to be a Planning Board responsibility.</b> | CHR-3        | 3-2-2                      |                 |           |                       |                      |                      |         |
| Create a dedicated funding source, including adoption of the Community Preservation Act, to provide assistance for preservation of historic properties and landscapes. <b>Discussions underway.</b>   | CHR-3        | 3-2-4                      |                 |           |                       |                      |                      |         |
